

SAFETY DATA SHEET

Section 1: PRODUCT AND COMPANY IDENTIFICATION

Product Identifier(s): Zinc Dust Reagent (ZINC DUST) AS-709

Recommended Use: In vitro diagnostics, laboratory chemicals/culture media for cultivation of microorganisms
Restrictions on Use: No information available

Manufacturer: Anaerobe Systems
15906 Concord Circle Morgan Hill, CA 95037
(408) 782-7557

Emergency Contact: CHEMTREC (800) 424-9300

Section 2: HAZARDS IDENTIFICATION

Hazard Classification: OSHA 29 CFR 1910.1200, CLP/GHS Regulation (EC) 1272/2008
Not classified as a hazardous substance or mixture.

Precautionary Statement: P273 – Avoid release to environment
P501 – Dispose of contents/container to an approved waste disposal plant

Signal Word, Pictogram: WARNING

GHS Label Elements:

Hazards Not Otherwise Classified: H410 – Very toxic to aquatic life with long lasting effects.

Section 3: COMPOSITION / INFORMATION on INGREDIENTS

This product is a mixture of substances for culture media and contains no hazardous constituents, or the concentration of all chemical constituents is below the regulatory threshold limits described in the OSHA Hazard Communication Standard 29 CFR 1910.1200 and Regulation (EC) No. 1272/2008. Major components are only listed for reference.

Principle Components:	%	CAS No.
Zinc	> 90	1314-13-2

Section 4: FIRST AID MEASURES

Description of first aid measures:

- If on skin: Wash affected area with plenty of soap and water.
- If in eyes: Immediately wash out with plenty of water for 10-15 minutes. Irrigate eyes thoroughly while lifting eyelids.
- If swallowed: Rinse mouth with water (do not swallow). Never make an unconscious person vomit or drink fluids.
- If inhaled: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
- Medical attention: If skin/eye irritation or a rash occurs, if experiencing respiratory symptoms, or if you feel unwell after exposure, get medical advice/attention.

Most important symptoms and effects, both acute and delayed:

May cause irritation; no further relevant information available.

Indication of any immediate medical attention and special treatment needed:

Treat symptomatically; no further relevant information is available.

Section 5: FIRE FIGHTING MEASURES

- Extinguishing media: Product in itself is not flammable. Use extinguishing measures that are appropriate to the surrounding fire and environment.
- Special hazards arising from the substance or mixture:
Small volumes of decomposition products during a fire may include carbon oxides.
- Protective equipment and precautions for firefighters:
Use protective equipment suitable to extinguish surrounding fire (fire protection suit, self-breathing apparatus pressure demand).

Section 6: ACCIDENTAL RELEASE

Personal precautions, protective equipment and emergency procedures:

- Avoid breathing vapors, mist or gas or inhalation of dust.
- Wear protective clothing as per section 8.
- Wash thoroughly after dealing with spillage.

Methods and material for containment and cleaning up:

- Absorb spillage in inert material.
- Place in sealable container, seal and label.
- Ventilate the area and wash spill site (cover drains) after material pick up is complete.
- Seek expert advice for removal and disposal of all contaminated materials and wastes.

Section 7: HANDLING AND STORAGE
--

Precautions for safe handling:

- Avoid inhalation and contact with skin and eyes.
- Eyewash stations/bottles should be available.
- Do not eat, drink or smoke when using this product.
- Ensure adequate ventilation.
- Wash hands thoroughly after using product.

Conditions for safe storage, including any incompatibilities:

- Store at temperatures within 20-25°C (68-77°F).
- Keep container tightly closed; protect from light.

Section 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

Control parameters: Contains no substances with occupational permissible exposure limit values (PEL), or Threshold Limit Values (TLV).

Engineering controls: Eye wash station and safety shower should be available.

Individual protection: Good laboratory practice and usual precautionary measures for handling chemicals should be followed. Select protective clothing specifically for the workplace after risk assessment:

Hands: Handle inoculated media with gloves. Dispose contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash/dry hands.

Eye protection: Face shield and/or safety glasses if splash potential exists

Body: Protective work clothing (laboratory coat)

Respirator- not required

Section 9: PHYSICAL AND CHEMICAL PROPERTIES
--

Appearance:	Solid, purple, powder	Explosive limits:	No data available
Odor:	No odor	Flammability limits:	No data available
Odor threshold:	No data available	Vapor pressure, density:	No data available
pH:	No data available	Relative density:	No data available
Melting/freezing point:	No data available	Water solubility:	Not soluble in water
Boiling point/range:	No data available	Partition coefficient:	No data available
Flash point:	No data available	Auto-ignition temp:	No data available
Evaporation rate:	No data available	Decomposition temp:	No data available
Flammability (solid/gas):	No data available	Viscosity:	No data available

Section 10: STABILITY AND REACTIVITY

Reactivity: No data available
Chemical stability: Considered safe under normal conditions
Hazardous reactions: No hazardous reactions if used for its intended purpose
Conditions to avoid: No data available
Incompatible materials: Oxidizing substances, bases and acids
Hazardous decomposition products: Zinc/Zinc oxides

Section 11: TOXICOLOGICAL INFORMATION

Information on toxicological effects:

Likely route of exposure: Eye contact, skin contact, ingestion

Symptoms: Slight mucosal irritation

Delayed and immediate effects and also chronic effects from short and long term exposure:

Sensitization: No data available

Reproductive toxicity: No data available

Aspiration hazard: No data available

Mutagenic effects: No data available

Carcinogenicity (IARC, NTP, OSHA, ACGIH):

No component of this product presents at levels greater than or equal to 0.1% is identified as a probable, possible or known/confirmed human carcinogen.

STOT* -single exposure: Not classified

STOT* -repeated exposure: No data available

(* - specific target organ toxicity)

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Section 12: ECOLOGICAL INFORMATION

Exotoxicity: No data available

Persistence/degradability: No data available

Bioaccumulative potential: No data available

Mobility in soil: No data available

Other adverse effects: The ecological effects have not been thoroughly investigated but currently none have been identified.

Section 13: DISPOSAL CONSIDERATIONS

The information presented only applies to the material as supplied. The considerations may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the final waste generated to determine the proper disposal methods in compliance with applicable local, regional and national laws and regulations.

Waste disposal: This material as supplied is not regarded as hazardous waste.
 If inoculated with microorganisms, autoclave or incinerate prior to disposal.

Contaminated package: Dispose of as unused product

Section 14: TRANSPORT INFORMATION
--

UN Number: 3077
 UN Proper Shipping Name: Environmentally hazardous substances, solid, n.o.s. (Zinc powder (stabilized), Zinc oxide)
 Transport Hazard Class: 9
 Packing Group: III
 Environmental Hazard: Marine pollutant
 Transport in bulk: Not classified
 Land Transport (DOT): UN number: 3077 Class: 9 Packing Group: III
 Proper shipping name: Environmentally hazardous substances, solid, n.o.s. (Zinc powder (stabilized), Zinc oxide)
 Reportable Quantity (RQ): 1010lbs
 Marine pollutant: Yes
 Poison Inhalation Hazard: No
 Road/Rail (ADR/RID): Not dangerous goods; this material is considered non-hazardous for transport.
 Air Transport (IATA): UN number: 3077 Class: 9 Packing Group: III
 Proper shipping name: Environmentally hazardous substance, solid, n.o.s. (Zinc powder (stabilized), Zinc oxide)
 Sea Transport (IMDG): UN number: 3077 Class: 9 Packing Group: III
 EMS-No: F-A, S-F
 Proper shipping name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (Zinc powder (stabilized), Zinc oxide)
 Marine pollutant: Yes
 Further Information: EHS-Mark required (ADR 2.2.9.1.10, IMDG code 2.10.3) for single packagings and combination packagings containing inner packagings with Dangerous Goods > 5L for liquids > 5kg for solids

Section 15: REGULATORY INFORMATION

Safety, health and environmental regulations specific to this substance or mixture:

SARA Section 302 (required reporting):

No chemicals in this material are subject to the reporting requirements of SARA, Title III, Section 302

SARA Section 313 (specific toxic chemical listings):

The following components are subject to reporting levels established by SARA Title III, Section 313:

	<u>Cas No.</u>	<u>Revision Date</u>
Zinc oxide	1314-13-2	2007-03-01
Zinc powder (stabilized)	7440-66-6	1993-04-24

SARA Section 311/312 (acute/chronic health, fire, reactive, sudden release or pressure hazards):

No SARA hazards.

TSCA (Toxic Substances Control Act):

Substance is not listed.

California Proposition 65:

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Carcinogenic categories**NTP (National Toxicology Program)**

Substance is not listed.

TLV (Threshold Limit Value established by ACGIH)

Substance is not listed.

Product related hazard information:

Observe the general safety regulations when handling chemicals

Water hazard class:

Generally not hazardous for water.

Section 16: OTHER INFORMATION

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantees of the properties of the product. Anaerobe Systems shall not be held liable for any damage resulting from handling or from contact with the above product.

Initiated: 09/06/17
