

## INSTRUCTIONS FOR USE

### BRAIN HEART INFUSION BROTH (BHI BROTH)

#### PRODUCTS

AS-872	Brain Heart Infusion Broth (BHI BROTH) – 5 mL tube	10 tubes / pkg
AS-8721	Brain Heart Infusion Broth (BHI BROTH) – 100 mL bottle	1 bottle / pkg
AS-8722	Brain Heart Infusion Broth (BHI BROTH) – 250 mL bottle	1 bottle / pkg
AS-8725	Brain Heart Infusion Broth (BHI BROTH) – 500 mL bottle	1 bottle / pkg

#### INTENDED PURPOSE

TruPRAS™ Anaerobic Culture Media is intended for the transport, preservation, or cultivation of a wide variety of microorganisms from specimens to aid in the isolation of bacteria for in vitro diagnostic and / or research / general laboratory purposes.

#### INTENDED USERS

Scientists, laboratory, and healthcare professionals trained in anaerobic microbiology techniques working in areas such as clinical, research, industrial, pharmaceutical and veterinary applications.

#### FORMULATION\*

BHI BROTH is a general-purpose, enriched, non-selective medium intended for the growth of a wide range of microorganisms, including most anaerobic bacteria and other fastidious organisms. It supports growth from a wide range of specimens and is commonly used to prepare inocula for identification and susceptibility testing. BHI broth is especially useful as a blood culture medium. Its nutrient-rich formulation includes brain heart infusions from solids and meat peptone, providing essential components for microbial growth. The medium is further supplemented with vitamin K<sub>1</sub> and hemin to enhance the growth of anaerobic bacteria. This medium is prepared, dispensed, and packaged under oxygen-free conditions using TruPRAS™ Technology to prevent the formation of oxidized products prior to use. This product is supplied ready to use, with no pre-reduction step required.

Brain heart infusion	17.50	g
Proteose peptone	10.00	g
Dextrose	2.00	g
Sodium chloride	5.00	g
Sodium phosphate dibasic	2.50	g
Yeast extract	5.00	g
Hemin	5.00	mg
Vitamin K <sub>1</sub>	10.00	mg
Resazurin	1.00	mg
L-cysteine hydrochloride	0.50	g
DI Water	1.00	L

\*Approximate formula. Adjusted and/or supplemented as required to meet performance criteria.

Final pH: 7.3 ± 0.3 at 25°C

Final volume: 5.0 mL ± 0.5 mL for AS-872

Final volume: 100.0 mL ± 10.0 mL for AS-8721

Final volume: 250.0 mL ± 25.0 mL for AS-8722

Final volume: 500.0 mL ± 50.0 mL for AS-8725

## PRECAUTIONS

For IN VITRO DIAGNOSTIC USE only. Utilize approved biohazard precautions and aseptic technique when using this product. This product is for use by properly trained and qualified personnel only. Sterilize all biohazard waste prior to disposal. This product is manufactured as a single use device.

Report serious incidents that occur in direct relation to this product to [tech@biolog.com](mailto:tech@biolog.com). As necessary, report serious incidents to the regulatory authority in which the user is established.

This product may contain components of animal origin. All components of animal origin have been sourced from Bovine Spongiform Encephalopathy- (BSE-) free and Transmissible Spongiform Encephalopathy- (TSE-) free countries. Certified knowledge of the origin of animal derived components does not guarantee the absence of transmissible pathogenic agents. It is recommended that Universal Precautions be observed.

When working with anaerobic culture media, the potential for ergonomic hazards may exist due to repetitive motions, awkward postures, improper bench/chair heights or poor lighting. Although it is beyond the scope and provision of products by Anaerobe Systems, it should be recognized and mitigated by the end user in the laboratory environment.

## STORAGE AND SHELF LIFE

**Storage:** Upon receipt, store at room temperature (15 – 25°C) in original package until used. Avoid overheating or freezing. Do not use media if there are signs of deterioration (discoloration due to oxidation of media), contamination, broken cap, or cracked glass. The expiration date applies to the product in its original packaging and stored as directed. Do not use product past the expiration date shown on the label.

**Shelf Life:** 1 year from the date of manufacture.

## PROCEDURE

**Specimen Collection:** Protect specimens for anaerobic culture from oxygen during collection, transportation, and processing. Consult appropriate references for detailed instructions concerning collection and transportation of anaerobes. The selection of specimens for culture is made by physicians or scientists collecting the sample.

**Methods for Use:** BHI BROTH should be inoculated directly with a specimen or with isolated colonies. Immediately place into an anaerobic atmosphere and incubate at 35 – 37°C for 18 – 48 hours. Extended periods of incubation may be required to recover slower growing anaerobes. Detailed instructions for processing anaerobic cultures can be found in the listed references. As packaged, this medium constitutes a qualitative, manual method.

## MATERIALS REQUIRED BUT NOT PROVIDED

Standard microbiological supplies and equipment such as loops, saline blanks, slides, staining supplies, microscope, incinerator / autoclave, incubators, anaerobic chamber / anaerobic jars, disinfectant, other culture media, and serological / biochemical reagents.

## INTERPRETATION OF RESULTS

BHI BROTH is a highly nutritious broth media used for the growth of fastidious and non-fastidious microorganisms, including bacteria, yeast, and mold, from a variety of specimens.

## LIMITATIONS

BHI BROTH will not provide complete information for identification of bacterial isolates. Additional test procedures and media are required for complete identification. In some cases, this media may not grow every anaerobic strain. Consult reference materials for additional information.

## QUALITY CONTROL

The following organisms are routinely used for quality control testing at Anaerobe Systems using the specifications outlined in the CLSI document M22-A3: Quality Control for Commercially Prepared Microbiological Culture Media.

Organism Tested	ATCC® #	Results
Bacteroides fragilis	25285	Growth
Prevotella melaninogenica	25845	Growth
Phocaeicola vulgatus	8482	Growth
Fusobacterium nucleatum	25586	Growth
Fusobacterium necrophorum	25286	Growth
Clostridium perfringens	13124	Growth
Clostridium novyi	7659	Growth
Peptostreptococcus anaerobius	27337	Growth
Clostridioides difficile	9689	Growth
Staphylococcus aureus	25923	Growth

**User Quality Control:** The final determination to the extent and quantity of user laboratory quality control must be determined by the end user.

If the nutritive capacity of this medium is to be tested for performance, it is recommended that the following ATCC® organisms be evaluated for growth.

Organism	ATCC® #	Results
Bacteroides fragilis	25285	Growth
Clostridium perfringens	13124	Growth
Prevotella melaninogenica	25845	Growth
Staphylococcus aureus	25923	Growth
Fusobacterium necrophorum	25286	Growth

**Physical Appearance:** BHI BROTH should appear as a clear yellow liquid.

ATCC® is a registered trademark of American Type Culture Collection.

## GLOSSARY OF SYMBOLS

SYMBOL	TITLE	DESCRIPTION	STANDARD	REF#
	Catalog number	Indicates the manufacturer's catalog number so that the medical device can be identified.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.1.1
	Lot number/ Batch code	Indicates the manufacturer's batch code so that the batch or lot can be identified.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.1.5
	Use-by date	Indicates the date after which the medical device is not to be used.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.1.4
	Authorized Representative	Indicates the Authorized Representative in the identified country or jurisdiction.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.1.2
	Do not re-use/ Single use only	Indicates a medical device that is intended for one single use only.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.4.2
	Consult instructions for use or consult electronic instructions for use	Indicates the need for the user to consult the instructions for use.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.4.3
	Temperature limit	Indicates the temperature limits to which the medical device can be safely exposed.	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.3.7
	In vitro diagnostic medical device	Indicates that a medical device is intended to be used as an in vitro diagnostic medical device	ISO 15223-1 Medical devices – Symbols to be used with medical device labels, labelling, and information to be supplied	5.5.1
	CE Mark European Conformity	Designates that the product labeled is authorized for sale in European countries.	EU IVDR (EU) 2017/746
